### Israel hosts World Fellowship Conference

The Israeli Medical Association World Fellowship (IMA-WF) will hold its biennial international conference in Haifa, 3-7 May, 2016. The conference will be presented in conjunction with the IMA Scientific Societies' Forum, creating a rare opportunity for international doctors to learn firsthand about developments in Israeli medicine.

The scientific program will include speakers from Israel and around the world, who will present a variety of topics in a series of short presentations in thematic sessions as well as longer, keynote speeches.

Conference sessions/topics include:

- The Future of Medicine
- Medical Ethics
- Medicine in Times of Conflict
- Medicine and the Holocaust
